Projects

FoodKart – Online Food Ordering Website

- Developed a **full-stack food ordering platform** using HTML, CSS, JavaScript, PHP, and MySQL.
- Implemented **secure user authentication, cart system, and booking/order tracking features**.
- Deployed on InfinityFree with live URL: <https://foodkart.42web.io/>

College Canteen Website

- Built a **static website** for the college canteen using HTML, CSS, and Bootstrap.
- Improved responsiveness and simplified navigation for better user experience.

Calculator & Quiz Website

- Designed and deployed an **interactive calculator** with memory, history, and dark mode features using JavaScript.
- Built a **quiz application** with score tracking and multiple-choice questions to test general knowledge.
- Enhanced UI using Bootstrap for a clean and responsive design.

Portfolio (React + Gmail Messaging)

- Designed and deployed a **portfolio website** using **React** to showcase skills and projects.
- Integrated a **contact form with Gmail messaging** (via EmailJS) so recruiters can directly send messages.
- Implemented responsive design with **Bootstrap** for smooth viewing on all devices.
- Deployed online using GitHub Pages
